 THE **LINUX** FOUNDATION

Cisco Academy Day, Deutschland, 2018

Sprecher: Klaus Behrla,  
Business Development Director - Training, EMEAR Region,  
The Linux Foundation

# The Linux Foundation has the mission to provide Linux Knowledge world wide

The Linux Foundation's introductory Linux courses provide companies and individuals a variety of training options to increase their knowledge.

"Providing high quality, free and vendor neutral entry level training is a critically important component of ensuring continued growth and adoption of open source software," said Clyde Seepersad, General Manager of Linux Foundation training.

# The Linux Foundation has the mission to provide Linux Knowledge world wide

Linux Foundation training has just passed the one million mark for people enrolled in courses on edX

"While we're humbled at having reached one million folks, we remain aware of just how big the need is," said Clyde Seepersad, General Manager of Linux Foundation training.

# Start Linux Foundation Training unter: www.trainlux.eu

The screenshot shows a web browser displaying the website [www.trainlux.eu](http://www.trainlux.eu). The browser's address bar shows the URL and search icons. The website header includes contact information (info@trainlux.eu, +49 172 6842500), a shopping cart icon with the text "Your basket is empty.", and a search bar. A navigation menu lists: TRAINING, CERTIFICATION, PARTNER, TRAINER, SPECIAL OFFER, BLOG, EVENTS, DOWNLOADS, ABOUT US, CONTACT. The main content area features a large blue banner with a binary code background. The banner text reads: "GET 40% OFF ANY E-LEARNING COURSE FROM THE LINUX FOUNDATION". Below this, it says: "Get the skills you need to expand your open source knowledge with one of our self-paced online courses. Deal expires April 20, 2018, so buy now!".

## LINUX FOUNDATION TRAINING

Mit der zunehmenden Verbreitung von Linux sowohl auf dem Server- als auch auf dem Embedded-Markt bieten die Linux Foundation Einführungskurse und das erweiterte Linux-Training sowohl Unternehmen als auch Einzelpersonen eine Vielzahl von Trainingsoptionen, um ihr Wissen und ihre Nutzung von Linux zu erweitern. Wir halten unsere Linux-Kurse anbieterneutral, und als das Unternehmen, das den Linux-Gründer Linus Torvalds beschäftigt, wurde unser Training mit den derzeitigen Führungskräften der Linux-Entwicklungscommunity erarbeitet.

Ob der Time-to-Market oder die hohe Performance von Linux für Ihr Unternehmen von entscheidender Bedeutung sind: die Linux Foundation-Kurse bieten eine einzigartige Investitionschance, die sich mehrfach bezahlt macht. Für Einzelpersonen ist die Nachfrage nach Linux-Talenten auf einem allzeit hohen Niveau. Das

## Enterprise IT & Linux System Administration Training

Kurs ID	Titel	Dauer
LFS101	<p><b>Introduction to Linux</b></p> <p>Linux betreibt 94% der Supercomputer der Welt: die meisten Server betreiben das Internet, die Mehrheit der Finanzgeschäfte weltweit und eine Milliarde Android-Geräte. Kurz gesagt, Linux ist überall. Es ist in vielen verschiedenen Architekturen zu finden, von Mainframes über Server und Desktop bis hin zu Mobilgeräten und einer erstaunlichen Vielzahl von Hardware. Dieser kostenlose Selbstlernkurs vermittelt Ihnen, wie Sie gute Linux-Kenntnisse entwickeln, indem Sie sowohl die grafische Benutzeroberfläche als auch die Befehlszeile verwenden.</p> <p><a href="#">Buchen Sie Ihr LFS101 Training hier.</a></p>	Unbegrenzt

**Agreement**

You must review and agree to the statement below in order to complete your reservation. Once you have reviewed the text below you may continue by pressing the Agree button at the bottom of this page. If you click Disagree your reservation will not be saved.

---

**Innovative Exams Candidate Agreement**

You agree that Innovative Exams can take your photo and may ask you to scan your government issued identification. These will be used for identity verification only and are not retained for any other purpose. In addition, live audio and video will be streamed during your testing session to a remote monitor and will be stored for future reference. Should the remote monitor detect any potential cheating activity, they may pause or terminate your testing session. Any specific rules established by your exam sponsor will be enforced. If you have any questions regarding this you may contact the monitor via the Live Chat Window. You must accept this agreement to complete your reservation for this exam.

---

**The Linux Foundation Certification and Confidentiality Agreement**

Candidates are required to accept the terms and conditions of the [The Linux Foundation Certification and Confidentiality Agreement](#) prior to starting the Exam

As per the terms of the Linux Foundation Certification and Confidentiality Agreement, Certification is not permitted for candidates under thirteen (13) years old. By indicating your acceptance of The Linux Foundation Certification and Confidentiality Agreement, you hereby represent that you are thirteen years of age or older. You acknowledge that The Linux Foundation is relying upon such representations in granting certification.

---

By clicking the I Agree button, you indicate that you have read, understood, and accept [The Linux Foundation Certification and Confidentiality Agreement](#).

The LF is working with others to increase Linux knowledge for all audiences

One example is the Microsoft MCSA Azure Certification “MCSA Linux on Azure”

The LF is working with others to increase Linux knowledge for all audiences

Purpose of MCSA Linux on Azure:

This certification demonstrates the ability to design, architect, implement, and maintain complex cloud-enabled Linux<sup>®</sup> solutions that leverage Microsoft Azure open source capabilities. It also validates your Linux system administration skills to show that you are fluent in today's cloud-native world.

# The LF is working with others to increase Linux knowledge for all audiences

- Candidates have to pass two exams to get the MCSA Linux on Azure:
- 1. Linux Foundation Certified System Administrator (LFCS)
- 2. Implementing Microsoft Azure Infrastructure Solutions (Exam 70-533)
- 

# Cooperation between Microsoft and the LF on training

Results of the cooperation on training between Microsoft Subsidiaries (Germany, Central&Eastern Europe, Western Europe and Middle East Africa) and the Linux Foundation Training EMEAR region:

More than 150 Microsoft employees, mostly Technical Sellers, have been trained on the Linux Foundation course “Deploying and Managing Linux on Azure” (LFS305)

# Cooperation between Microsoft and the LF on training

Results of the cooperation on training between Microsoft Subsidiaries (Germany, Central&Eastern Europe, Western Europe and Middle East Africa) and the Linux Foundation Training in the EMEAR region:

The Linux Foundation has published a new e-Learning course “Administering Linux on Azure” (LFS205)

# Cooperation between Microsoft and the LF on training

Results of the cooperation on training between Microsoft Germany and the Linux Foundation  
Training in the EMEAR region:

Microsoft Germany created a pilot project to prepare employees of Microsoft partner companies with effective and appropriate webcast training and other measures to become Linux Foundation Certified System Administrators (LFCS) and to pass the MCSA: Linux on Azure certification.

# Microsoft Open Source Momentum

over 6,000 employees contribute to open source projects

**“Microsoft is working with all major commercial Linux vendors”**

**“largest number of the top 500 open source projects for any one entity”**

Microsoft has over 15,000 contributors on GitHub

## THE NEW STACK

How Microsoft Is Shifting Focus to Open Source

<https://thenewstack.io/microsoft-shifting-emphasis-open-source/>

released over 3,000 open source projects

**“if you want to bridge the gap between Windows and Linux servers, Microsoft and its Linux partners has you covered with its Azure Linux offerings.”**

<http://www.zdnet.com/article/linux-on-azure-what-are-your-choices/>
